## About Me

Detail-oriented and passionate Junior Software Engineer with a strong foundation in programming, problem-solving, and software development. Proficient in JavaScript, PHP, MySQL and experienced in building web and software applications. Eager to contribute technical skills and innovative thinking to a dynamic team while continuously learning and growing in the field. Adept at collaborating in agile environments and committed to writing clean, efficient, and maintainable code.

## Experience

**AJ & J Cargo Movers inc. (February 2024 - Present)**

Jr. Software Engineer

- Developed and maintained both front-end and back-end components of web systems using PHP, MySQL, Bootstrap, and JQuery.
- Designed and implemented scalable database structures using MySQL.
- Manage the full project lifecycle from architecture design to deployment and post-launch maintenance (with minimal assistance).
- Optimize performance and ensure security best practices across the stack.
- Researched and recommended cutting-edge technologies to streamline workflows and enhance system performance.

**Makati Medical Center - (June 2023 - August 2023)**

IT Support Intern

- Support the IT team in providing technical support to end users, including troubleshooting hardware and software, resolving technical problems, and providing timely solutions.
- Designed and developed a custom IT advisory template integrated into a web system for posting announcements, updates, and alerts.

## Education

**Bachelor of Science in Information Technology (2019-2023)**

Polytechnic University of the Philippines - San Pedro Campus

82MH+QPG, United Bayanihan Proper Rd, San Pedro, Laguna

## Other Projects
