738 San Roque, San Pedro, Laguna

About Me

Detail-oriented Software Engineer with a strong foundation in programming, problem-solving, and software development. Proficient in JavaScript, PHP (Laravel), and MySQL, with hands-on experience developing web and software applications using object-oriented programming (OOP) principles, including encapsulation, inheritance, polymorphism, and abstraction. Demonstrates strong collaboration skills within agile environments and a commitment to writing clean, efficient, scalable, and maintainable code. Highly motivated to contribute technical expertise and continuously develop skills in a professional software development setting.

Experience

AJ & J Cargo Movers inc. (February 2024 - March 2026)

Jr. Software Engineer

- Developed and maintained both front-end and back-end components of web systems using PHP, MySQL, Bootstrap, JQuery, and VILT (Vue.js, Inertia, Laravel Tailwind including Typescript) stack.
- Developed a Tire Tracker System to monitor tire assignments, maintenance history, incident reports, and analytics dashboards.
- Developed an Asset Management System with QR code tagging to manage asset lifecycle, including assignment, borrowing, repair, disposal, and location tracking.
- Developing a Human Resource Information System (HRIS) focused on managing employee records and job application data.
- Assisted in the development and maintenance of an Accounting System, supporting core financial processes and system enhancements.

Makati Medical Center - (June 2023 - August 2023)

IT Support Intern

- Support the IT team in providing technical support to end users, including troubleshooting hardware and software, resolving technical problems, and providing timely solutions.
- Designed and developed a custom IT advisory template integrated into a web system for posting announcements, updates, and alerts.

Education

Bachelor of Science in Information Technology (2019-2023)

Polytechnic University of the Philippines - San Pedro Campus
82MH+QPG, United Bayanihan Proper Rd, San Pedro, Laguna

Other Projects

Homeowners Association Information Website with Booking System for Southview Homes 3 (Capstone Project)

- Utilized SvelteKit, Tailwind, Firebase, and PayMongo.

chattr Chat App (Course Subject Project)

- Utilized Dart, flutter, and Firebase.
